Important to Every House Keeper.

(TRADE MARK.)

COALINE

Has no equal for cleaning Paint, Graining, Window-Glass, Marble, Gold Frames, Pianos, Sewing-Machines, Oil Cloths, Silver Ware, &c., without soap or water. Removes Ink Stains, and Grease of any kind from White Cotton and Linen Fabrics, and from Carpets and all Woolen Goods of fast color. Reduced one-half with water makes a harmless and fine shampoo for the head. It will remove dirt and stains from the hands, leaving them soft, smooth and white. House kept clean a year for twenty-five cents.

What Ladies say who are using Coaline:

"I would not keep house without it."

"Although cheaper than soap, I should use it if it cost twice as much. It leaves my hands in such a nice condition."

"Worth more than you ask for it, just to take off the pencil-marks my children will make on the walls."

"Have never been able to keep my mirrors satisfactorily clean until I used Coaline, as other ways of cleaning injure the frames."

"It is wonderful for cleaning fly-spots from walls and window-shades."

The highest testimony from the multitudes who are using it.

Labor saving, cleaning done in one-fourth of the time. No slopping on Carpets or Furniture, and without the slightest injury to the most delicate surface. Once used will never be abandoned.

We ask from every fair minded, economical person an impartial trial of Coaline; it can be obtained of Grocers by the pint, quart or gallon, at the rate of 10 cents per quart, making it cheaper than soap.

DIRECTIONS.—Take a clean sponge and wet slightly with the "Coaline," thoroughly moisten (*not wash*) the surface to be cleaned, then wipe first with a damp, then with a clean dry cotton cloth, changing the cloths as often as soiled, and the work is complete. Wash the sponge after cleaning paint before cleaning glass.

For Graining, Glass and all polished or delicate surfaces, reduce one-half with water; a sponge should never be used on mirrors or piano cases, a piece of soft flannel being the proper thing.

Follow the directions. Ask your Grocer for it. THOMPSON & KELLOGG, Agents, 22 and 24 Central Street, Wholesale and Retail.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellowish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surfaces being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharges [illegible] swell and become thickened [illegible] through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down into the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the [illegible] and throat, the mucus becomes [illegible] scabs, incrustations, and hard lumps, which [illegible] firmly to the nasal passages and throat, to require very persistent efforts to dislodge them. The eye [illegible] sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in [illegible]. The ear also becomes seriously affected, discharging quantities of matter, besides being affected by the most violent neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

All sufferers of this most serious disease warns all who are afflicted with it to seek a speedy preparation for its treatment before it becomes incurable. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a distinctive remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the esteem in which it is held by those who have been freed from this most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1. Sold by all wholesale and retail druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

To my Patrons and Friends in Bangor and vicinity--Greeting.

For many years I have used VULCANITE RUBBER as a BASE for artificial teeth. But there is mercury in this plate and many who wear teeth prepared in this way, have suffered severely with canker in the mouth. But for more than three years I have used a new patent—the 'CELLULOID' BASE, with the greatest satisfaction. This plate is entirely free from everything that can produce soreness to the mouth. My patients are delighted with it, and the more I use it the better I like it. Those who suffer from the use of RUBBER can come and have a new set of teeth made upon 'Celluloid' or a very small sum.

All dental work that comes to me, I will do in the best possible manner and at the lowest terms.

THE CARMEL FAIR.

The Fifth Annual Exhibition and Fair was held at Carmel village, Thursday, Sept. 26th. At an early hour despite the fog and clouds, crowds of people from this and adjoining towns came to witness the fine display in each department. The ladies did nobly in arranging and displaying both useful and ornamental articles, together with an unusually fine floral display, among which was the flowery lake, where in a secluded spot, the rabbit had found its home, with no one to molest or make it afraid, save the serpent, who had crawled unnoticed nearly ready to seize the young rabbits who were carelessly and fearlessly feeding upon the bank; this lake was tastefully arranged by Mrs. Sarah Ruggles, a lady of seventy-three years.

Much credit is due to the manner in which the Marshal, Thomas Robinson did his duty, who seemed to have a way of doing things to please all.

And we would not forget the several committees who tried to do their duties in awarding premiums where they belonged; the premiums were as follows:

FLOWERS.

Miss E. H. Johnson, 1st, who exhibited almost an endless variety, and arranged with much care and taste; Miss Fannie Getchell, 2d, who displays much taste and patience in the cultivation of rare plants; Mrs. J. A floral cross well worthy of praise, by Mrs. Mary Croxford, which added much beauty to the hall. Mrs. Hattie Hopkins, a large calla lily in bloom; Mrs. A. Getchell, geranium and amyrillis; Mrs. I. Winslow, a ricinus; Walter Pike, a cactus of enormous size and beauty; Mrs. Benj. Kimball, Hermon, an elegant bouquet containing 52 varieties of choice flowers; an umbrella plant, by Mrs. D. C. FRUIT.

We find a very fine display of the finest fruit, almost above the common representations, at our farmers' fairs, generally; and indeed we find so many specimens of equal merit that it is difficult to determine which is best, and would say it is very nice. MISCELLANEOUS ARTICLES.

The first thing noticed was a mineralogical collection exhibited by Mrs. E. S. Brown of North Carmel, and collected by her in Colorado. There were in this collection several rare specimens of rock, some petrified cedar and moss, a very beautiful specimen of topaz, besides various other things of rare beauty. Taken as a whole this collection would not have been out of place upon the shelves of our best Museums, and would have gladdened the heart of any mineralogist. Mr. H. W. Pease exhibited some very nice wheat. Some of the stalks were five feet in length and all well filled. Such wheat proves that the farmers of Maine can raise their own bread if need be. A warming pan exhibited by Mrs. Sarah Ruggles, which in the long ago, Rendered comfortable the bed of one of the first settlers in this town, attracted much attention, it being a new thing to a great many. From the polished appearance of this ancient article one would think that Mrs. Ruggles, contrary to the advice of Pickwick, had troubled herself about the warming pan.

A pair of sheep made of Butter by Mrs. Mary H. Bartlett, showed that their maker had a true artist's eye and hand, and that she was willing to use her skill to gratify other people. If fatness is considered essential to good mutton, these sheep will make first rate eating.

Mr. L. F. Corliss exhibited an apple tree limb 16 inches long upon which was 33 apples, and five had dropped off previous to the exhibition.

Mr. Alonzo Burrill, exhibited a squash weighing 92 pounds, and had two others that grew on the same vine that weighed over 50 pounds apiece. We think this vine is hard to beat.

For fret work, Fred S. Libby exhibited a bracket in which were worked the Masonic emblems, had the first preference; Wm. Nichols, 2d; E. H. Lamb, 3d.

Mr. I. S. Burgess exhibited some very nice cabinet work. A secretary made by him deserves especial notice.

Thomas Robinson, J. G. Croxford, and Walter N. Pike displayed some cucumbers grown together quite curiously. Master David A. Blagdon had some large ones, one of which was 14 inches long and 4 inches through.

An ancient pair of wooden shoes was shown by Bela Sylvester. These shoes looked as though they might wear well if not comfortably.

Mrs. Minnie Harvey was given the preference for Canary birds, she displaying quite a family of them.

Among the things that people noticed most was a model steam engine, the property of Dr. Austin I Harvey. It was very small but we would judge from the noise it made, what it might do if it had been permitted to grow a few years longer.

Mrs. Henry Luce exhibited a very nice kid cushion, which was very attractive.

John R. Chase, Roland F. Mayo, Benj. W. Murch, Committee.

Many thanks to the people of the neighboring towns for their contributions and attendance.

STATE NEWS.

Androscoggin.

Mr. Zibeon Crafts of West Auburn, fell from an apple tree on Tuesday, injuring himself quite badly. Mr. Cyrus S. Packard, who dislocated his hip a week or two since, will probably recover. Mr. P. is totally blind.

Mr. A. T. Cushman of Minot, started Friday, with his team for Caribou. He has taken up a lot on which not a tree has been cut, and intends to make him a farm.

Mr. James Wood of Lewiston, has been cultivating the acquaintance of the Byron bears. He has just returned from Swift river, and says that the bears are very numerous in that region and do much damage to apple trees. Five bears in one drove came into the orchard of Mr. G. Hodgdon one day, recently, and helped themselves to fruit. Several shots were fired at them without effect.

The Lewiston *Journal* says: It appears by the police records that when he has served out his present sentence, "Kit" O'Connell will have spent 267 days out of about a year in the county jail. He has paid $60 in fines during the same time and has been arraigned before the Municipal Court seven times. This is a shining record. The other day O'Connell went into a drug store and asked for cigars. He was shown a box, put three cigars in his pocket, and then gave the box a kick, telling the proprietor to "take the change out of that!" "Kit" would make a good hook for the chain gang.

Cumberland.

In Scarboro', at Pine Point, Thursday day afternoon, while two men by the names of George S. Leavitt and Taylor S. Dodge were drilling out an old charge in a well, the charge exploded from a spark from the drill, as is supposed, and Dodge, it is feared, will lose the sight of both eyes, while Leavitt lost a portion of one hand as a result.

Kennebec.

The Waterville *Journal* strongly remonstrates against shippers of sheep and cattle overcrowding cars. It says on Monday last six cars passed through Waterville. In one car three lay dead, and in all twelve were trodden to death. Oscar Wall lately received 275 lambs in three cars and all in good condition.

The Augusta *Journal* says: Thursday we chronicled the accident to Capt. Wm. Dustin of Litchfield. He died on the afternoon of the accident.

The State House Gun Club practiced Thursday afternoon, and Gen Connor proved to be the best shot. Hon. E. C. Farrington came next on the list.

The Augusta *Journal* says: Whitcomb, the attendant at the Insane Hospital has not yet been captured. He has perhaps fled the country.

John P. Wellman of Belgrade, recently had a cow run over and killed by the evening train. The animal was made into mince meat, too early for Thanksgiving, however.

The Gardiner *Journal* says that the Gardiner Ice Co., finished shipping all their ice Thursday. The Knickerbocker houses at Smithtown were all cleaned out last week. The Cedar Grove Ice Co., have shipped all their ice.

The Waterville *Mail* says: Richard Butler, a Frenchman, had a narrow escape for his life, Tuesday afternoon, while at work in the gravel pit of Abram Ronco, on the Plains, by the bank caving in upon him. He was extricated, but suffered a very bad fracture of the leg below the knee the bone being finely broken and protruding through the flesh. He was well cared for in the hands of a physician.

One day last week, a lad of ten or twelve years, son of Mr. Amariah Haskell of Rockland, was playing in the barn, and, in making a jump, he fell short and struck on his wrist, fracturing it very badly. He is now doing well.

Washington.

The Wallace boys of Lubec have built smoke house in place of those burned some weeks ago, and have filled it with herring (3300 boxes), while the rest of the fishermen have been looking on and taking none. Herrings are a failure in West Quoddy bay.

The *Sentinel* says: Almon Small, son of W. F. Small of Lubec, has been diseased for the past two months; the disease seems to baffle the efforts of the physicians attending him. It seems to be such a species of insanity, that no one is able to control him when in one of his spasms, and as he is gradually growing worse, the case is one of great affliction to his father and mother, who lost their only other son at Grand Menan two years ago, while crossing from Great Duck Island to the main Islands This young man is eighteen years of age.

York.

A lady in North Berwick, in that section known as "Grammar Hill," has this season raised as the product of only one bean, four hundred and eighty beans. All the beans are full and plump and there was nothing very remarkable about the soil, only, as may be supposed, it was gangers' soil.

Joseph Littlefield, a farmer residing at Cape Porpoise, met with a severe accident on Friday of last week. He was at work with his oxen in the field drawing rocks. Just how the accident happened is not known, but from the appearance of his head it is thought that while stooping to fasten the chain to a stone he was kicked in the head by one of the oxen. Mr. Littlefield's family were absent at the time but when they returned they found Mr. Littlefield curled up in bed, and in an insensible condition, with a cut through his cheek to the jaw bone. He did not recover consciousness until Sunday, but could then offer no explanation. The oxen were found in the field. It is supposed that he was dazed by the blow, but had consciousness enough left to start immediately for the house.

The U. S. steamer Ticonderoga at Kittery station is almost ready for officers and crew. Her quarters are fitted up in the most approved manner. The Kearsarge is in the sectional dock, the Lancaster on the ways.

A court martial has convened at the Kittery navy yard for trial of private Geo. Lingard, attached to the marine corps of the navy yard, who a few days ago while drunk and disorderly stabbed Capt. Marden of the navy yard steamer "Emerald," and also attempted to strike Lt. Randolph Dickens of the marine corps.

Benjamin Durgin of Kittery, while blasting for a well at Union Bluff, Cape Neddic, was struck in the back by a rock, which at one time it was thought would prove fatal. He is now recovering.

The Union Lace Company, of Kennebunk, has leased for ten years the large mill at Lake Village, N. H., owned by the Lake Company, and for a long time unoccupied, for the purpose of manufacturing boot lacing, tape, braid, etc., which will give employment to about 150 employes. A smaller mill, owned by the Lake Company, is leased for the same time by the Howard Mill Company, or C. N. Calvin of Kennebunk and J. A. D. Cross of Boston, for the manufacture of wickings, twine and yarn, employing about seventy-five hands.

FOOT SALVE,

The Sure Cure for Corns and Infallible Remedy for Bunions, Sore and Inflamed Joints and Chilblains.

This salve is the result of years of study and experiments by a distinguished Chiropodist, and we feel confident, in offering it to the public, that it will meet the wants of thousands of people that are afflicted with these most troublesome of diseases, corns, Bunions and Sore Joints—as every person so suffering can be cured by using this Salve. It has an advantage over other preparations of a like nature in the market, that it does not burn the corn out, but it softens the flesh around it, and so separates it that it can be removed without pain or bleeding. For those using this salve will find it will work as follows:

After applying the Salve three or four times a ring will appear around the corn, which indicates that it has become separated from the true flesh and it can now be easily removed, or after another application it will fall out of itself. For a Bunion, Sore or Inflamed Joint one application will almost entirely remove the inflammation, and it is relieved [illegible] cure.

This Salve will not cure a soft corn, but will remove the inflammation and keep the foot in a comfortable condition.

GIVE IT A TRIAL.

Price, 25 Cents a Box.

CURIOUS ETHICS

The young men who attend Williams College receive their instruction in "History and Political Economy," from Professor Arthur Latham Perry, and the press has frequently had occasion to note the partisan bigotry infused into his teachings. On Thursday evening last he delivered a lecture before the new Free Trade Club, of New York, and astonished all present by launching into a tirade of accusation that the Republicans had carried the last Presidential election by fraud. The Republicans present were astonished at the introduction of such a topic at the first meeting of the Club, and the Democrats were even more mortified at the ill timed revival of a cry which had become an unpleasant remembrance since the publication of the secret negotiations for bribery by the Democratic candidate and his confidential agents. But Perry was not at all abashed and after reviling the prominent Republicans of the country for an hour or more he came to the defense of Tilden and his coparceners with the following remarkable standard of morality:

[Report of the N. Y. World.]

In conclusion Professor Perry said ... "I am going to say something about the cipher despatches. I am going to make the supposition which is that the ... is the true construction of affairs. I am going to make the supposition that Samuel J. Tilden knew all about them and that he agreed to pay $50,000 for the vote in Florida. Then hear me when I say all that is but attempt ... bribery ... does that attempted bribery seem in the presence of consummated fraud? But then that bribery was not to contravene facts. The canvassers were to be bribed to announce the votes just as they were cast. This was ... to tell ... and tell a ... These despatches don't reach to the roots of the thing at all."

And that is the code of morality taught the young men of Massachusetts in an institution founded in the interest of the truth liberally endowed by the State as a nursery of enlightened citizenship, and to whose moral influence the Rev. Mark Hopkins gave the labor of his life from 1836 to 1872. No wonder that the presiding officer of the New York club felt obliged to disavow sympathy with the sentiments of the speaker, or that the N. Y. ... which is almost ready to worship any zealous Free Trader was constrained to editorially condemn such vicious doctrine.

The cool assumption of Mr Perry to decide that the popular vote in Florida was cast for Tilden is lost sight of in the astonishment that this professor of political economy lays down the rule that the end justifies the means however criminal! Admitting, he says, that Tilden agreed to bribe the electoral vote of a State for $50,000 that is innocent petty and even innocent because it was only attempted bribery and because he says some one else succeeded in a fraud. His rule is for the interested party to decide for himself that his cause is right and then he is fully justified in bribing any official to act in his favor. That reduces the moral aspects of bribery to a very convenient plane for the operations of those who rely upon it.

There has been a great deal said about the hostility of machine politicians to the meddling of literary men and the alleged anathema of Simon Cameron at those d—m literary fellers" has become a familiar phrase. What is the secret of this alleged feeling? No one believes that ex-Senator Cameron or any other sagacious political leader regards education as a hindrance to political usefulness. The explanation must be found in the eccentric political course of men who have confined themselves to the study of specialties until they have lost the faculty of dealing with actual men and things. At any rate the literary fellers have not failed to afford some most conspicuous illustrations of moral obliquity in politics. As recently as the last Presidential election while the country was in anxious suspense as to the final result, the whole people of the Union were startled at the report that one of the regularly chosen Electors was considering the expediency of betraying his constituents and deciding the contest by carrying his vote over to the candidate whom he was elected to oppose. A prompt and alarmed inquiry disclosed that this rumor did not relate to any machine politician or "carpet bagger" or even to any ignorant negro in the South but to a New England College professor, with a world wide reputation in literature. And another New England College professor then a member of Congress actually urged his friend in the name of patriotism and high moral duty to perform the most odious act of treachery possible for an American citizen. Now we have another New England College professor assuming the voluntary championship of detected villainy and proclaiming the creed that unsuccessful bribery is innocent if the men attempting it believe in the end they have in view.

We think there are very few thoughtful men who will not say that a person who publicly declares such sentiments and lays down such rules of morality is unfit to be entrusted with the training of youth. The people have manifested every disposition to welcome the scholar in politics but those who have regard for the standard of public integrity would prefer that such scholars should have different moral teaching from that of such men as Professor Arthur Latham Perry.

The Washington Post the red hot Democratic organ with a view of casting discredit upon the reports received from South Carolina regarding the Sumter outrage, publishes a silly cock-and-bull story that the Sumter affair was a put up job, that it was planned at the Republican headquarters by Messrs Hale and Gorham, who furnished the money to buy arms for two or three thousand negroes to murder innocent and helpless Democrats, and that the plot failed only because of the coolness exhibited by the Democratic leaders and the cowardice of the negroes who were to be leaders in the massacre. In view of the boastful and detailed reports of the affair in South Carolina, Democratic papers this attempt to divert the responsibility from the Democrats for the Sumter outrage is regarded as pitiful in the extreme.

The Treasury officers think that at the present rate of accumulating coin, the Treasury will have by Jan 1 an amount of gold equal to more than two-thirds of the entire volume of legal tenders outstanding. More than half of the coin accumulated is now in the sub-Treasury at New York. Secretary Sherman is more confident of successful resumption than he was before his visit to that city.

THAT'S THE QUESTION

[From the Providence Journal]

The Springfield Republican admits the Democratic outrages upon Republicans in South Carolina, that a paper published by one of the aids of Governor Wade Hampton fires the Democratic heart to villainous proceedings, and that, in general, the occurrences which have caused comment of late in the Republican press, are discouraging to all well wishers alike of the South and the common country. And yet it asserts that all this is "enjoyed" by some "bloody shirt organs." As it has never happened to us to see any newspaper which by any, the most extraordinary stretch of language, could be said to take pleasure in the condition of things in South Carolina, one can only feel that the Republican exchanges with a different class of papers than that which comes to the Journal, or it is either bewildered or prejudiced. It is an indictment which we would not like lightly to make, that any paper could be so unpatriotic as to exult in the violence, crime, defiance of law and rude despotism which prevail in South Carolina. Only less damaging would be the imputation that all this known and acknowledged, any paper should seek to palliate such injustice, encourage it or in any way suggest the leaving of these Republican citizens to the tender mercies of Hampton's armed raiders without pity and without protection. The Republican says that neither Washington authorities nor Federal troops can prevent these outrages." That is taking for granted that the administration cannot or will not do that which the law declares it shall do. That no attempt will be made to enforce the law, or that next time the South will whip the North and West. Hampton can prevent this crime, says the Republican, but he don't ... the matter rest there?

THE SOUTH CAROLINA TERRORISM

[Special Washington correspondence Boston Journal]

News from Republican sources arrived to-day fully confirms the statements of the Democratic papers as to the condition of affairs in Sumter county, South Carolina and the inauguration of the shot gun policy under Wade Hampton. There is no quarter for Republicans. South Carolina is practically again in arms and an order has been issued from headquarters that every county must be carried at all hazards regardless of consequences and the era of peace and fraternal good will that was expected and predicted has not come and will not come unless the Republicans abandon their rights and submit to the domination of the Democratic minority. The Republicans, although in an overwhelming majority have not dared to make nominations for State officers, and they are not able to hold a mass meeting in the State. The recent attitude of the Administration is ridiculed and a letter of the Attorney General directing the United States District Attorney to see that the election laws are enforced is utterly disregarded and is subject to jest. The United States District Attorney and United States Marshals themselves, although directed to be present at the meeting at Sumter county last Saturday, did not appear there and have sent no report to the Attorney General to give reasons for their non appearance. Probate Judge Samuel Lee who was assaulted by Hampton's aids at a public meeting and who submitted his case to the President was compelled to hide for his life upon his return to Sumter county.

THE CONCILIATED SOUTH

[From Senator Conkling's Speech at Utica]

Look at South Carolina under a Governor installed under circumstances which he would not stop to mention. Yet there is much that is encouraging in the South. When they go gunning for negroes or revenue officers now they observe the game laws. They do not shoot them out of season. They only kill them when it is necessary to prevent the collection of the revenue or to carry an election. But that is not all that is encouraging. Wade Hampton has actually offered to allow the laws of the United States to be carried out. He will allow the revenue to be collected if the government will allow him to receive it. Wade Hampton offers to assist the United States. There is something refreshing in this. But that is not all. When Republicans hold meetings now they never kill more than one or two and no so many if they keep still. In to-day's papers we are told the Democrats went to a Republican meeting and loaded a cannon with ten penny nails. They trained it on the speaker and covered him with five hundred rifles, but he did not say anything and they did not shoot. The Republican party the speaker concluded believes that the conduct of the Republican party toward the South has been more magnanimous than was ever known in history. These Southern men are living monuments of the generosity of the American people.

BRING ON YOUR BEARS!

[From the New York Tribune]

If there was any Republican crookedness in either of the disputed Southern States in 1876 that will be disclosed by the translation of cipher despatches which passed between the Republican managers and their agents, the Tribune has never desired to have it covered up, and we now call especial attention to the letter which Mr William E Chandler wrote to Governor Cox a member of the Potter Committee, on this subject and which appeared in yesterday's Tribune. Mr Chandler is the one man in the North who knows what was actually done by the Republicans in Florida to secure the vote of that State for President Hayes and when he expresses the belief that a full investigation even by a partisan committee like that over which Mr Potter presides, will amply vindicate the integrity of the count there he places that committee in a position where it must either make such an investigation or confess to the country that it has no accusation to prefer against the Republicans in connection with the Florida count. Let us see now if the Democrats will join with the Tribune in turning "the keen, bright sunlight of publicity" upon all transactions conducted through cipher telegrams or otherwise during the counting of the votes of Florida South Carolina and Louisiana. A good beginning could be made with Mr William E Chandler's cipher despatches, which he has been anxious to translate ever since the Potter Committee was appointed.

It was most unfortunate for Mr Tilden that his orders to "replevin" those books in Michigan should have been given in the same cipher that the coparceners used. It put him in much the same light that a man suspected of burglary would be placed in were to be found in a suspicious attitude at a second burglary, with a "jimmy" in his coat-tail pocket. He might swear that he never saw the "jimmy" before, but there would be people who would look incredulous. If it were the same "jimmy" known to have been used in the former "job" the case would be a tough one.

The assertion that the Tribune got the cipher despatches from B. F. Butler, is disposed of by his Boston organ, the Globe, which has interviewed him on the subject, and says:

We are able to state on authority that they were not furnished by General Butler, and that he knows nothing of the means or the manner in which they have become public.

TILDEN'S DISCLAIMER.

THE LEADING JOURNAL OF HIS PARTY COMPELLED TO DENOUNCE ITS WEAKNESS AND EQUIVOCATION.

[From the New York World, Oct. 18.]

It was said of the force with which Sir Neville Chamberlain set forth on his recent unfortunate embassy to the Ameer of Cabul, that it was too large for an escort and too small for an army. In like manner it may be said of Mr Tilden's letter concerning the cipher telegrams of which we have heard so much recently that it is too long for a denial and too short for an explanation. Nor is this all. It denies only what needed no denial, and explains only what needs no explanation. It surely was not necessary for Mr Tilden to assure the country that he went into the Presidential canvass with "a fixed purpose" to take no part whatever in "any shameful competition for that office." And it is little less than amazing that he should have concerned it to be incumbent upon him to set forth the motives which led him to enter that "fixed purpose."

It is undoubtedly true that in order to achieve important reforms in the methods of the Government a President ought to go into office "untrammelled by any commitments in the choice of men and by any obligations to special interests." But it is equally true that a President who should undertake the administration of a system which needed no reforms at all thus trammelled would disgrace himself and degrade his country. And as the card which Mr Tilden publishes on this subject distinctly conveys the belief that propositions looking to the purchase of certain electoral votes were made by corrupt Republican electors to Democrats generally known or supposed to be his personal followers and to be in one form or another his political agents, it is impossible to read that card without astonishment at the absence from it of anything like warm and outspoken indignation at the insult thus offered to himself to the great party which he represented, and to the principles of the American Government. Mr Tilden was a college classmate of a conspicuous Republican statesman who is commonly reputed to have had an extensive familiarity with the persuasive power of what we may call extra constitutional inducements, upon the minds of such politicians as those with whom he had to make or mar the electoral fates in the canvass of 1876 at the South and Mr Edwards Pierrepont could tell him in the language of dear Lady Mary that in that politics as in illicit love—

... that has been tried
He ... too fear that comes to be denied

So far as the Republicans are concerned Mr Tilden's card was scarcely needed to strengthen the evidence furnished by themselves in these cipher despatches to prove that their representatives at the South were ready and eager to make scandalous bargains with the agents of the Democratic party. It only those agents could be induced to listen to them. The Democrats who labored for the election of Mr Tilden and who regarded him as pledged to the great work of thoroughly reforming our National Government will be startled by the tone in which he now speaks of transactions which he evidently regards as discreditable, and at variance with his own fixed purpose never to surrender or compromise the advantages of a perfect independence by a degrading competition for Returning Board certificates. Is it possible that any of those who surrounded Mr Tilden, and were in familiar intercourse with him during the Presidential canvass can have sought to make him deviate by word or act from that fixed purpose? If this was not the case what is the significance of this strong and peculiar phraseology? If this was the case what are we to think of a great political leader who could even be approached in such a way by those whom he had honored with his confidence and selected as his agents?

Mr Tilden speaks in this letter of the Congress which established the Electoral Commission as having "abdicated its function of deciding the count of disputed electoral votes." It might have been well had this strong language been used when the World was contending against the establishment of that commission. But may it not occur to those Democratic leaders who are now stigmatized with this charge, that the Presidential candidate of a great party has functions also which it is neither wise nor safe for him to abdicate and that the control of those who speak and act in his name is not the least important of those functions?

TILDEN'S ALBANY ORGAN THINKS IT SPLENDID

[From the Albany Argus]

The statement of Mr Tilden is the clearest utterance made since the fraud was wrought to inform and inspire the people. It is the most clarifying and convincing declaration of his duty to himself and his country, as he understood it that has appeared in types. It proves that the greatest man of the great party was its candidate and the elect of the party for the greatest office. It demonstrates that the Democracy, in the fact and by the issue of the fraud is panoplied with invincibility. It makes manifest that those who invoked attention again to that issue have only reunited the Democracy throughout the Nation on the subject which gives them the greatest answer a party ever had to inspire it or a country to redress and avenge.

We so completely disposed of the Commercial last attempt to revive that thoroughly exploded nonsense about the Five-twenty bonds being payable in greenbacks that it kept quiet for a while but has found some other paper to attempt the resurrection and copies its assertions. A most fitting reply to any one silly enough to raise that claim is that given by Senator Conkling the other day, to a man who interrupted him to ask, why it the Government bonds were originally payable in coin the act in 1869 was passed making them again payable in coin? Mr Conkling replied:

I will answer you first, by telling a story of a case in court, in which the cross examining lawyer thought himself very sharp as sharp as our friend would have been had he been there. The case was about two men who had come to blows. About how far apart were those men when they commenced the altercation?" asked the lawyer. "Eleven feet and ten inches," answered the witness. Then asked the lawyer "How do you know it was just exactly that distance, did you measure it?" Yes, sir." "And why did you measure it?" asked the sharp lawyer. The reply was "Because I thought there might be some controversy about the matter, and I didn't know but what some poor fool would ask me the question."

The Tribune remarks Mr Blaine seems to have carried everything before him, among enemies as well as friends in his late campaign tour in the West. The Chicago Tribune has this "Long John Wentworth says that Senator Blaine makes the most effective stump-speeches that have been made in Illinois since the days of Douglas, and that his quickness of retort to interruptions is as wonderful as that which gave the Little Giant his great reputation."

The Republican majority on Congressmen in Ohio is 11,011. The operation of the gerrymander is illustrated by the fact that in nine districts the Republicans have a majority of 30,791, while in eleven districts the Democrats have a majority of only 19,780. The Republicans would have carried thirteen or fourteen districts under a fair apportionment.

The Cincinnati Enquirer mournfully observes as Congressman Hale turns his steps Pennsylvania-ward from Ohio that "Hale is a mild-mannered man, but a slick and wicked fighter."

FINE TEAS.

PRICES REDUCED.

[illegible]

IT WILL PAY YOU!

It is a well known fact that there have always been more poor Teas sold in Maine than in any other State. Indeed, so well is this known to wholesale dealers in Boston and New York, that they invariably say in speaking of Tea too poor for any other market "Have you any trade in Maine?" It so these Teas are good enough for them.

The reasons for this demoralized state of the Tea trade in this State are: First the consumers, in their mistaken ideas of economy, have continually called for low priced Teas and secondly the dealer in order to meet this demand and also to compete with or undersell his neighbors, has been forced to keep a few of these poor goods. But we are pleased to say that a large majority of consumers have learned and more are learning that POOR TEAS are the most extravagant goods to use besides being very unhealthy, as almost all the very low priced Teas are damaged. Very few of the retail grocers are judges of Tea. They have so many articles to buy that they pay little or no attention to their selection. They intend to and no doubt they think do sell the best Teas but they have to depend wholly upon the wholesale grocer to select for them and he naturally enough sends the Tea he is most anxious to get rid of. We have had

20 Years' Experience In This Business,

part of that time being connected with some of the oldest Tea, Coffee and Spice firms in Boston and have always paid special attention to the selection of TEAS. With this experience and a natural taste for the business, we certainly should be a good judge of Tea and we never buy a Tea without first testing it thoroughly so you can rely upon always getting the same grade of goods at the same price of us. Knowing that there are a great many persons in this vicinity who appreciate FINE TEAS we determined to have some EXTRA FINE and after carefully searching the New York market we can safely say we have some of the

Finest Teas ever Offered for Sale in Bangor

They are the very highest grade of GARDEN TEAS so called for the reason that they are grown in small cultivated gardens, and not in fields like other Teas. They are the first picking of the young tender spring leaf and were picked in April of this year and have more aroma than from leaves picked at any other season of the year. In fact they are the

VERY FINEST TEAS

brought to this country. All we ask of any person who has been buying Teas elsewhere and is not satisfied with the quality or price to try ours.

We are now selling the greatest bargains in Teas ever before offered in Bangor. Knowing that the dealer who sells the best Teas at the lowest price will get the largest trade we are determined to secure the reputation of selling the best Teas for the price sold in Maine. A trial of our goods will convince you that our prices are at least 25 per cent lower than other dealers ... for the same quality of Teas.

LONDON, Oct 19 Since the failure of the Glasgow Bank the stock exchange has been filled with rumors originated by jobbers to raise or depress prices The Financier says that the stories about the bank of England and bank of France are palpable inventions If one institution required bullions from the other, no special arrangement is needed to effect a purchase The article also says that some mischievous rumors of failures were almost set afloat, but their absurdity was so glaring that they did not harm and were discredited as soon as uttered

The Times' financial article commenting on the official report of the investigation of the Glasgow Bank says that the shareholders will now have some light thrown upon the condition of the banks affairs.

A cable despatch from Glasgow says that the report of the condition of the Bank of Glasgow confirms the worst charges against the directors of neglect of duty and culpable mismanagement, if not malfeasance for the past years The stockholders hope that the directors will be called to account

"TEA" WHITE having had twenty years experience in the tea business claims that he is a pretty good judge of that article, and as he never purchases any tea without giving it a thorough test, it naturally follows that he must constantly keep a choice assortment on hand. Speaking of being a judge of this article reminds us that we very frequently find him, on entering his store with numerous tea cups filled with the various grades of tea, arranged on the desk before him, which he sups with apparently as much enjoyment as any old confirmed tea drinker and as practice makes perfect, it seems as though he might be able to select a good article by this time In another column he presents an advertisement which we advise all our readers to peruse carefully and learn what he has to say about tea

C A. Bailey

Wm. A. Oakes vs John Holyoke et als Plaintiff a resident of Milford, a man who runs rafts of boards and logs, brings this action against defendants, lumber dealers, of Brewer, to recover $54 50 and $11 80 cents interest for running rafts from Greenbush to defendants' dock in Brewer. The rafts seem to have been cut, hauled and rafted by Daniel Lord, formerly of Lowell, but the legal title of the rafts appear to have been in George W Ladd of this city and were sold to defendants Plaintiff relies upon a special promise, alleged to have been made by defendants to him to pay him if he would run the rafts to their dock Defendants deny the promise and say they had no ownership of the rafts, that plaintiff run the rafts for Lord or Ladd, and not for them, and this they claim to prove by Daniel Lord, who swears he hired the plaintiff to run the rafts at an agreed price and expected to pay for running

Defendants say that when Lord made the trade with plaintiff to run these rafts, there were on them certain rigging, stay lines, etc, which they say plaintiff has retained to this day and ought to pay for — Case occupied the entire day yesterday — Verdict this morning for for plaintiff for $13 53

ON TRIAL

James H. Smart vs. G. W. P Jerrard — Plaintiff a peddler residing in Dixmont — Defendant a Deputy Sheriff of this County. Plaintiff claims he bought certain goods of F. S. Jennison and paid for them, that after he bought them they were attached by defendant on a writ against Jennison and he brings his action of replevin to recover them. Creditors of Jennison are the parties in interest in defense of this action, and they say Jennison was insolvent and they had taken possession of the stock, that plaintiff and Jennison, contriving to cheat them, put up this contract of sale for that purpose—that the sale was made in bad faith; that Jennison had no right to sell and that plaintiff knowing the circumstances of Jennison had no right to purchase.

INGERSOLL'S STYLE

Characteristic Terseness and Simplicity

Mr. Editor —Why is it that we hear so much in relation to Col. Robert G. Ingersoll as a public speaker? What gives him such popularity as an orator with the people, educated and uneducated, in all parts of the country? Praises of his eloquence appear to be upon the lips of every one who has heard him What is there so very remarkable about his speeches? Take for instance his lecture delivered in Norumbega Hall Wednesday evening, Oct, 16th, or the report published in the Whig the 19th and examine it carefully.

The writer confesses that he has read, re-read and read it again, with interest, and then quite carefully dissected it As a result of the labor, he finds that with type used and as leaded, it makes about fifty squares or inches There are four hundred and fifteen lines, divided into twenty-eight paragraphs There are two hundred and thirty four sentences, containing about thirty-one hundred words There are about twenty three hundred and fifty words of one syllable, about five hundred of two syllables, about one hundred and sixty of three syllables seventy two of four syllables, four of five, and three of six syllables, and not one word that indicates that he ever studied French, German or Latin Why, I have heard young stump orators and young ministers in the pulpit with the pin feathers scarcely out on their oratorical wings exhibit more knowledge of Webster's unabridged dictionary than Ingersoll, and display knowledge of other languages than English and still their efforts fall flat, were hardly mentioned What is the secret of Ingersoll's success? That our public speakers will discover the secret for their own benefit and the benefit of a listening public is very desirable

Moosehead Lake Notes

Mr Savage of the N E Carry House — formerly kept by Capt John Ross of this city—is making extended improvements upon his house and the adjacent grounds A bath house is to be erected and he will receive during the winter a barouche with which parties can be taken with ease and facility over the excellent "carry" road to the West Branch where boats and canoes will be in readiness to take parties to Lobster Lake and other places of interest in the vicinity.

Quite a number of young orchards some containing a large number of trees, have recently been set out in and about Greenville

Now that the law prohibits the catching of trout and togue the boys around Moosehead Lake content themselves with catching suckers chubs and cusk

There is considerable lumbering being carried on in the vicinity of the Lake parties being at work at Lily Bay, on Moose River, Socatean River and other points, but the amount cut will be less than last year Morrison & Hunting have crews at work on the West Branch

Game is quite plenty around the Lake, but, with one eye on his gun and the other on the game laws the hunter is in danger of overshooting the one or overstepping the other

The care and skilfulness of the Captains Robinson—Thomas and his son Charles—who manage the steamers on the Lake is shown in the fact that while the passage between the lower islands is so narrow that two boats cannot pass at the same time no boat has ever been run on the ledge though the passage is made in all kinds of weather, day or night amid fog and darkness so thick that absolutely no observations can be taken.

A largely increased business is anticipated at the Lake next year, a great number of rooms having been already engaged

An improved canoe has been built at the Lake this year,—by a Yankee of course—which is said to be greatly superior to the bark canoe and to greatly surpass it in durability It is built in all respects like the birch, with the exception that the bark is replaced by heavy cotton duck, which is painted on the outside It has the advantage of having no seams to start and stands rough usage over rapids and edges much better than the birch It is thought one of the new canoes will outware two of the old kind

G G Grennell Esq, has nearly completed the new observatory and other improvements at his pretty villa at Wilson's Pond The outlook from his observatory commands a view of sixty miles

Chas A J Farrar, Esq, of Jamaica Plains Mass, author of the "Guide to Moosehead Lake and Vicinity," with his wife, is sojourning at the Lake, taking notes for a revised edition of his Guide

The State Y. M. C. A Canvass

The State Executive Committee of the Y M C A were in session Tuesday evening at the rooms in Auburn Bailey of Winthrop, Burgess of Portland and Learned, Robinson, Hill, and Jordan of Auburn were present It was voted to prosecute the canvassing of the State in harvesting souls for Christ upon a plan similar to that of last year which met with such signal success. Three workers are to be put into the field principally in Washington and Hancock counties and another worker will be added if there are sufficient funds

$700 was pledged at the State Convention, $500 of which was by C. M Bailey of Winthrop The committee voted to issue circulars stating in substance the work accomplished last year and plans proposed for this and coming season, to be placed in the hands of every evangelical pastor in the State for voluntary contributions to carry forward the work. Work already has begun in Rockland in response to a very urgent call from a pastor of that place Great interest is being manifested and many are being awakened

The report of F E. Shaw was submitted in substance as follows We commenced the canvass, Dec 4th 1877, and with the exception of two towns our labors have been wholly confined to Washington county. Held meetings first in Eastport, where eighty-seven started upon a Christian life, thence at Robinston Here in a fortnight two hundred and fifty-five souls found hope hardly a home in town being unvisited by the angel of salvation. A few days at Red Beach, the Lord blessed us again by one hundred seekers In Calais a most wonderful work was wrought During two weeks there were three hundred and twenty-five inquired; in the third week the interest became intense, and twenty-five were asking prayers each day. Before we left Calais five hundred persons had expressed desires for Christian life. In Milltown, N B, there were two hundred seekers, in Pembroke one hundred and fifty, in Princeton one hundred and fifty, in Dennysville two hundred and three, where a most remarkable revival occurred sweeping over the entire town—only three houses in town, but where dwelt Christians. All the members of the brass band were converted except one, and only seven men in town but what attended divine service. East Machias, two hundred and fifteen, Machias, one hundred; Whitneyville, twenty-four; Wiscasset one hundred and thirty; and many other cases in Cutler, Jonesport, Columbia and North Vassalboro, where meetings were held. We had seventy-seven calls in all. The report was indeed a deeply interesting document and shows with what wonderful fulfilments of His promises God makes to his servants. The committee are hopeful for even grander results following labors in this campaign. Christians generously contribute to this object

IMPORTANT BUSINESS CHANGES

Extensive purchase of Tanneries in New York by Shaw Bros

[Correspondence of Whig and Courier]

The old and well known house of S H Spaulding & Son, of Boston, have retired from the tannery business, and their three large tanneries in Northern New York, in the Adirondack region, near the famous "John Brown" track, have been purchased by F Shaw & Bros

These tanneries are situated one in Saint Lawrence County, one in Franklin County, and one in Hamilton County, where bark is abundant, and so cheap as to be delivered at the tannery for $2 to $3 per cord. They are also well situated for low freights, being on competing lines of railways and canals F Shaw & Bros are offered by a large lumber company on the Hudson river ten thousand cords of bark annually, for a period of twenty years, free of stumpage, or, the company will peel and yard the bark for one dollar and twenty cents a cord. A tannery will be built at this locality next summer

We are sorry to see the attention of this extensive firm of F Shaw & Bros drawn from our State Maine cannot afford to lose such business talent, and the capital invested through its enterprise, which is yearly benefiting labor to a very large extent A little prudent legislation on the part of our State, to induce capital to remain in it, would be wise and concessions on the part of the great landed monopolists would be beneficial to themselves in leading such pioneers of the forest to remain in our State The tanner is the pioneer for the settler and farmer

We are credibly informed that F Shaw & Bros received into their warehouse at Boston during September, *sixty five thousand sides* of sole leather—some five hundred tons—and all sold to the home trade Low prices for both hides and leather is the order of the day with this enterprising firm

A Quebec despatch says that a girl who was a passenger on the steamship Polynesia from England, has died of small pox and three of the crew are now sick with disease
